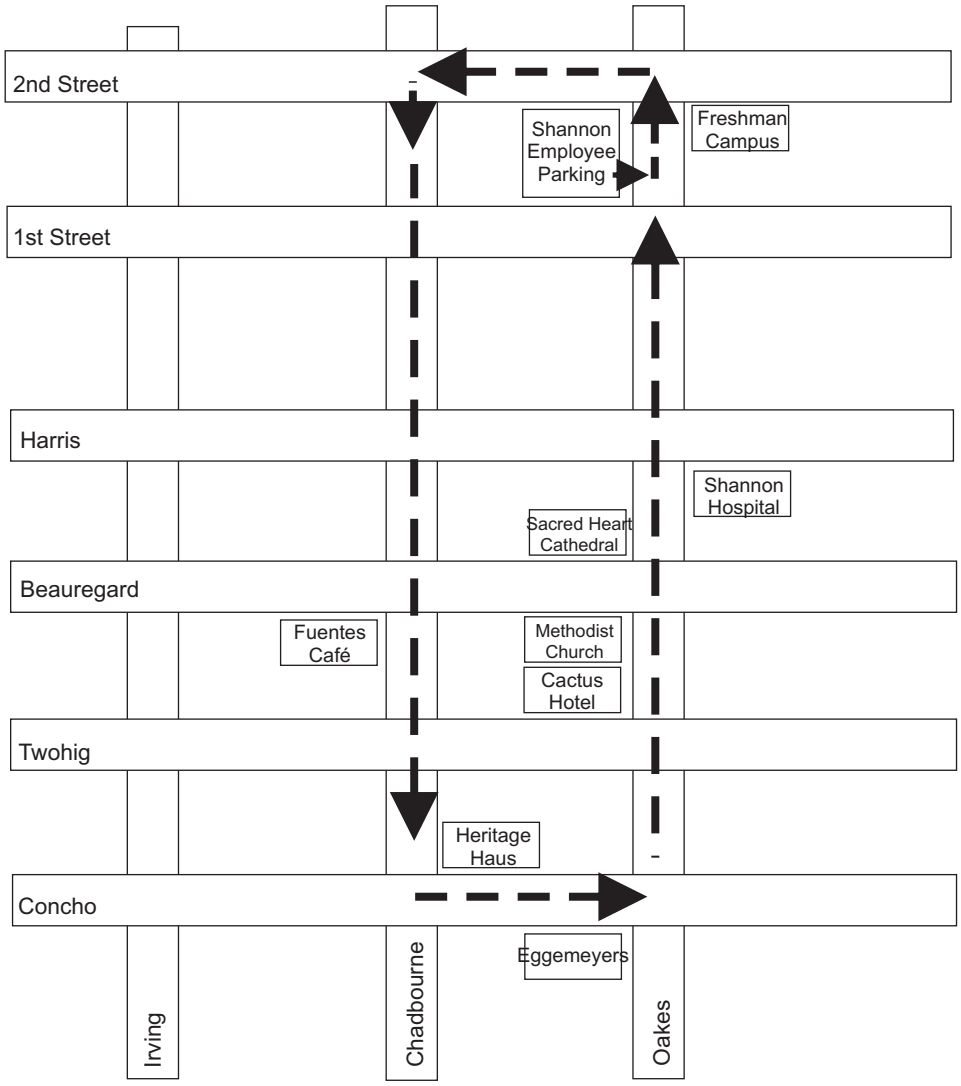
2017 Lights of Christmas Parade Route
Saturday, December 2, 2017



INSTRUCTIONS

The Shannon Hospital Employee Parking Lot on North Oakes Street will be available to us at 3:00 p.m.
All parade entries should be in place **no later than 5:00 p.m.**
All entries must be lighted to participate in this parade. The only exception is any vehicle pulling a lighted float.
Personal vehicles may be parked across the street in the parking lot by the Freshman Campus.
The parade officials will be wearing orange vests. If you have questions when you arrive, please ask for assistance
Each entrant will be given a number that will be placed on the passenger side windshield.
This number corresponds to the script and is not your line-up number.
The parade should move at a walking pace. This is especially important because several groups will be on foot and we don't want to lose any participants.

Please Note: There is a San Angelo city ordinance that prohibits throwing candy from moving vehicles.
If you want to distribute candy to the spectators, it must be done by individuals who are walking along side your float or vehicle.
